BWA Water Additives Showcases Biocides and Scale Inhibitors for Your Water Treatment Needs at Annual IWC Conference

At the International Water Conference (IWC) in San Antonio, TX, November 16 – 20, BWA Water Additives will be showcasing its broad-spectrum EPA-approved biocides, Bellacide[®] 355 and Bellacide[®] 301 that improve microbiological performance while reducing total costs.

Conference attendees are invited to visit BWA at booth #126 to learn about BWA's Bellasol[®] product line for scale inhibition in the Oil & Gas sector. Included is the newest scale inhibitor, Bellasol S65, which is biodegradable and provides the industry's highest protection against difficult scales, even in high temperature / high pressure formations. Company representatives will also be available to discuss BWA's biocides, scale and corrosion product lines for industrial water treatment applications, which have unique benefits.

For more information or to schedule a meeting with BWA, please contact melissa.goeren@wateradditives.com.

About BWA Water Additives:

BWA Water Additives is the leading global provider of sustainable water treatment technology solutions for the desalination, oil and gas and industrial water treatment markets. BWA antiscalant, corrosion inhibitor and microbiocide technologies provide customers with the essential elements required to meet today's water management challenges. For additional information please visit www.wateradditives.com.
