BWA Water Additives Presents High-Performance Desalination Solutions at Saudi Water & Power Forum, Jeddah, December 2–4, 2012

BWA Water Additives, the leading global provider of specialty water chemicals for desalination, will showcase its latest high performance solutions for thermal and membrane desalination at the Saudi Water & Power Forum (SPWF), Hilton Jeddah, Saudi Arabia, December 3 – 4, 2012.

Visit stand H-16 to meet BWA's regional business and technical leads to learn more about Belgard[®] antiscalants, and antifoulant proprietary polymers for MSF and MED systems, Belite[®] antifoams, and Flocon[®] antiscalants biocides, and membrane cleaners for reverse osmosis.

Contact Tanita.Cain@wateradditives.com with questions or to make appointments with BWA during SWPF.

BWA Water Additives is a technology-led specialty chemicals company whose only business is providing sustainable solutions to resolve our customers' water treatment challenges.
