“Best Product of the Year Award” to BWA Water Additives’ Belgard[®] EV2030 Antiscalant for Thermal Desalination

BWA Water Additives’ Belgard[®] EV2030 received the “Best Product of the Year Award” at the 3rd Annual H2O Water Awards Dinner, held November 21 in Dubai, UAE.

Belgard[®] EV2030 is a multifunctional product for the control of scale and particulate fouling in seawater multi-stage flash distillation plants. Certified to ANSI/NSF Standard 60, Belgard[®] EV2030 is effective against alkaline scale formation across the full range of top brine temperatures, where total control of particulate fouling and sludging is critical to maintaining thermal efficiency and longevity of distillers.

The “Best Product of the Year Award” was presented by UK Deputy General Consul Ian Gibbons. Countries represented at the Awards Dinner included Dubai, Abu Dhabi, Jordan, Iraq, Kuwait, Saudi Arabia, Egypt and the UK.
