BWA Water Additives Showcases Biocide for use in shale formations at Shale Insight 2014

At Shale Insight 2014 in Pittsburgh, PA, September 23-25, BWA Water Additives will be showcasing its broad-spectrum EPA-approved biocide, Bellacide[®] 355 that improves microbiological performance while reducing total costs.

BWA Water Additives will be participating in a Technology Showcase session on Tuesday, September 23, 2014 at the 2014 Shale Insight convention. The session will cover the use of BWA's Bellacide Biocides in shale gas. Attendees are invited to attend the session where BWA's Global Marketing Director George Nagle will discuss a case history around the Bellacide use.

The Technology Showcase will be held from 1:30-5:00PM on Tuesday September 23, 2014 in room 301-305 on the 3rd floor of the David L. Lawrence Convention Center.

For more information or to schedule a meeting with BWA, please contact melissa.goeren@wateradditives.com.

About BWA Water Additives:

BWA Water Additives is the leading global provider of sustainable water treatment technology solutions for the desalination, oil and gas and industrial water treatment markets. BWA antiscalant, corrosion inhibitor and microbicide technologies provide customers with the essential elements required to meet today's water management challenges.
